Seminar Announcement

Teaching Demonstration: Hypothesis Testing for a Single Population Mean
by

Dr Jason Man-Wai Ho

Research Scientist
Stanley Ho Big Data Decision Analytics Research Centre
The Chinese University of Hong Kong

Date	:	**1 April 2021 (Thursday)**
Time	:	**1:45 - 2:30 pm**
Zoom	:	**966 8479 8837 (Passcode: 596376)**

Abstract:

This is a teaching demonstration of a class on the topic of hypothesis testing for a single population mean. The class will start with examples of real-life applications to stimulate the audience's interest in the topic. Fundamentals of the hypothesis test for a single population mean will be addressed. The class will be concluded with examples of hypothesis testing with both continuous data and dichotomous data.

Bio:

Dr Jason Man-Wai Ho has fifteen years' experience in teaching Probability and Statistics. He was a faculty member at the National University of Singapore and the former Hang Seng Management College. He is currently a research scientist at the Stanley Ho Big Data Decision Analytics Research Centre of the Chinese University of Hong Kong.

All interested are welcome!
