

MScISM Luncheon Seminar

Developing Hong Kong as a Smart City

Date: 30 Apr 2016, Saturday
Time: 1:15 – 2:20pm
(Refreshments 12:40 – 1:15pm)
Venue: Rm 1001, LSK Building, HKUST
Speaker: Mr. Eric Yeung
*Founder & Managing Director
FlexWorkflow Limited*

Synopsis of the seminar:

In light of the worldwide growing trend and competition of smart city development, Hong Kong needs to explore how we can leverage our information and technological advances to build infrastructure for a smart city, manage our city in a smarter way, and deliver better services to meet public needs. In this seminar, the speaker will share with you the competitive edge of Hong Kong in smart city transformation and outline the market opportunities and challenges lying ahead.

Bio-sketch of speaker:

Mr. Eric Yeung is the Founder and Managing Director of FlexWorkflow Limited, a member of FlexSystem Group. FlexWorkflow is a leading enterprise solution provider which engages in software development, project implementation and consultation of workflow solution, Business Process Management (BPM) solution as well as Document Management System (DMS) solution in Hong Kong, PRC and the Asian countries.

Eric takes an active part in the technology industry. He is the convener of Smart City Consortium, the chairman of Hong Kong Software Industry Association, the vice chairman of the Internet Professional Association, and the council members of both Hong Kong Computer Society and the Hong Kong Information Technology Joint Council. He also holds key posts in many business and government committees.

Eric received a bachelor degree in Computer Science from The Chinese University of Hong Kong (CUHK). He also holds a master degree in E-business and an MBA degree from CUHK.
