

MScISM Luncheon Seminar

A Story of Building a Local Cyber Security Firm to a Global Company

Date: 21 Nov 2015, Saturday
Time: 1:15 – 2:20pm
(Refreshments 12:40 – 1:15pm)
Venue: Rm 1001, LSK Building, HKUST
Speaker: Mr. Ronald Pong
CEO
Nexusguard Consulting Ltd.

Synopsis of the seminar:

Organizations are increasingly realizing the importance of delivering the highest level of security and compliance to protect against information theft and data breaches. When organizations adhere to industry standards for ensuring privacy, everyone is more secure. It is essential for organizations to comply with international standards designed to keep data safe and secure. As every organization has different strengths, vulnerabilities, and goals, creating customized strategies for organizations' unique security needs is important. The speaker will talk about how his organization - Nexusguard Consulting Ltd (NCL) - leverages best-in-class services to ensure that organizational systems and data are under the best protection. The speaker will shed some light on how NCL has captured the strong growth in the mobile computing market to further develop the business as a global company.

Bio-sketch of speaker:

Mr. Ronald Pong is the Chief Executive Officer at NCL, where he combines over 18 years of experience in Information Security Management, Computer Forensics, and Compliance Audit to guide businesses on following best practices in security.

In addition to consulting with numerous corporations, from international banks, finance institutions and manufacturing companies to government and law enforcement bodies, Ronald Pong is a thought leader in information security and has helped transform the security industry in Hong Kong and throughout Asia Pacific. Serving as an adjunct lecturer at HKU Space for over eight years, Ronald has published many research papers and academic materials on various security topics. His dedication to raising awareness for information security has garnered multiple media interviews and invitations to speak at seminars and lectures.

Mr. Pong holds multiple international qualifications, such as PCI QSA, PCI ASV, PCIP and PA QAS.
